Continuation Sheet

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Applicant's representative initiated a telephonic interview with the Examiner of record to discuss the subject matter that was indicated as allowable in the Final Office action, mailed June 3, 2004. Applicant's representative discussed filing a request for continued examination adding the subject matter of claim 17, "wherein said laminating adhesive having air vent channels," to the independent claims. Applicant also discussed altering the term "air vent channels" to "air flow management means" which Applicant says has support on page 15 of the specification. Applicant was advised that adding the new limitation "air flow management means" would raise new issues requiring a novel search and further consideration.
